

## Workshop on Brain "decoding": Classifying and predicting mental states from brain activity

Friday, September 24, 2010  
12:30-5:30pm  
501 Schermerhorn Hall  
Columbia University

### **Schedule:**

12:30 – 12:40	Introduction
12:40-1:20	Tor Wager “ <i>TBA</i> ”
1:20-2:00	Po-Jang (Brown) Hsieh “ <i>Multivariate Pattern Analysis and Neural Correlates of Visual Awareness</i> ”
2:00-2:20	Coffee Break
2:20-3:00	Ken Norman “ <i>Tracking memory retrieval using multivariate pattern analysis</i> ”
3:00-3:40	Janaina Mourao-Miranda “ <i>Decoding fMRI data: from cognitive neuroscience to clinical applications</i> ”
3:40-4:00	Break
4:00-4:40	Tom Mitchell “ <i>Neural Representations of Word Meanings</i> ”
4:40-5:20	Discussion

For abstracts see the workshop webpage:

<http://www.stat.columbia.edu/~martin/PredictionWorkshop.html>

The workshop is sponsored by the Department of Statistics at Columbia University.
